01 — BUSINESS INTRODUCTION

Getting Inside HiTech Techno

COMPANY PROFILE

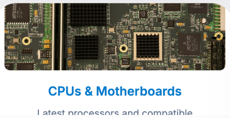
HiTech Techno Limited is a B2B IT component distributor established circa **2018**, headquartered in **Tsim Sha Tsui, Kowloon, Hong Kong**. The firm sources premium components from **tier-1 global manufacturers** and serves corporate IT buyers, system integrators, and resellers across the SAR. HiTech maintains approximately **40 active accounts** built primarily through personal referral networks.

PRODUCT PORTFOLIO

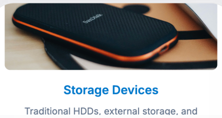
SSDs & NVMe Drives
Enterprise & consumer

RAM Modules
DDR3 / DDR4 / DDR5

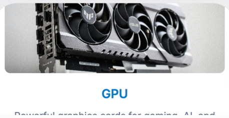
Flash Memory
USB, SD, embedded



CPUs & Motherboards
Tier-1 brands



Storage Devices
HDD, external, enterprise



GPUs
Gaming, AI, HPC

HOW WE GOT ACCESS

- **Bhavya Jain** (group member) has direct family ties to HiTech Techno's ownership — the company is a family business.
- This enabled **privileged access** to management, operations staff, and internal documents — bypassing typical SME gatekeeping.
- We could observe **actual workflows** rather than relying on reported practices — a significant methodological advantage.

FIELDWORK SUMMARY

2 On-site Visits

4 Staff Interviews

3 Documents Reviewed

5 Competitors Benchmarked

02 — FIELD OBSERVATIONS

What We Saw On the Ground

VISIT 1 March 18, 2026

- Full office walkthrough & workflow observation
- Orders managed via **Microsoft Excel** — no CRM or ERP system
- Client communications via **WhatsApp & email** only
- Interviewed **Mr. Chan** (Operations Manager) & Sales Lead
- No digital marketing assets or brand presence observed

VISIT 2 April 2, 2026

- Observed a live **client negotiation call** — pricing communicated verbally
- Product catalog distributed as **static PDFs** — no live pricing or search
- Confirmed **zero live inventory system** — stock tracked on paper & Excel
- Interviewed Procurement Officer & Admin Assistant
- Reviewed 3 internal docs: sales log, supplier list, order templates

120–150
Orders per month

80%
Revenue from repeat clients

0

03 — CORE PROBLEM IDENTIFIED

Digital Invisibility
in a Digitally-Driven B2B Market

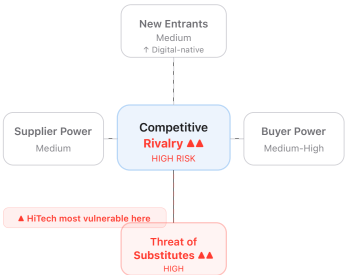
⚠ KEY DEFICIENCIES

- **No social media presence** whatsoever — LinkedIn, Facebook, Instagram: all absent
- **Static brochure-only website** — no pricing, no search, no live inventory, no contact form
- **100% word-of-mouth acquisition** — zero inbound digital leads ever recorded
- **Zero digital marketing spend** — no Google Ads, no SEO, no content strategy
- **Invisible to new B2B buyers** — <200 website visits/month vs. thousands for competitors

DIMENSION	HITECH	TECHDATA HK	INGRAM MICRO	ARROW ELEC.
LinkedIn Presence	× None	✓ Active	✓ Active	✓ Active
E-Commerce Portal	× None	✓ Full	✓ Full	● Partial
Live Inventory	× None	✓ Yes	✓ Yes	✓ Yes
Digital Marketing	× Zero	✓ Active	✓ Active	✓ Active
Discoverability	× <5%	✓ High	✓ Very High	✓ High

Why This Is Not Just a Marketing Problem

▲ PORTER'S FIVE FORCES



Digital platforms *are* the substitute. Online-enabled rivals create permanent pressure.

RESOURCE-BASED VIEW

✓ STRENGTH — RELATIONSHIPS

Deep trust-based network with 40+ corporate clients; 80% repeat revenue.

✓ STRENGTH — SOURCING

Established relationships with tier-1 manufacturers; competitive authentic pricing.

⚠ GAP — DIGITAL ASSETS

Advantages are **invisible digitally**. New buyers cannot discover or engage with HiTech online.

⚠ GAP — SCALABILITY

Non-digital resources cannot scale past ~40 accounts without digital infrastructure.

80%

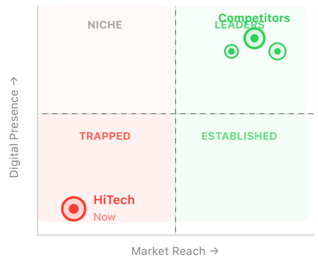
of B2B sales interactions will occur through digital channels by 2025

— *Gartner, 2020 Future of Sales*

STRATEGIC RISKS

- Market share erosion to digital-native rivals
- Revenue plateau — capped at ~40 accounts
- Relationship attrition with no digital backup

POSITIONING MATRIX



05 — RESEARCH PROGRESS

What We Have Done So Far

Site Visits (2/2)	100%
Staff Interviews (4/4)	100%
Competitor Benchmarking (5 firms)	100%
Website Traffic Analysis	100%
Digital Audit (SEO & Social)	100%
Financial Impact Modeling	40%
Client Survey (10 clients)	30%
Final Report & Recommendations	0%
